

Health, Safety & Environmental (HSE) Manager

McDonald York, a Commercial General Contractor located in Raleigh, NC, is looking for a Safety Manager in the Raleigh area. The primary responsibilities of the Safety Manager are to direct the development and implementation of safety, health, and environmental and regulatory compliance programs as they apply to employee protection and public safety and to maximize loss control and also to ensure compliance with all current federal, state, local company and client-specific safety requirements.

The Safety Manager shall perform frequent and regular safety compliance inspections of all construction sites and administrative areas, implement safety training programs applicable to the specific hazard or exposure. The Safety Manager shall incorporate any new or revised safety standards into company policies or procedures. The applicant must be able to work well with a diverse work force, and provide effective safety direction and leadership at the project level.

Qualifications include a minimum of 5 years' experience working in a safety role. Possess OSHA 30 Hour and/or 500 Construction Safety Training Certification. Prior experience in Construction is required and previous experience in the general construction industry is preferred but not required.

McDonald York Building Company provides a complete and competitive benefit package. McDonald York Building Company is an Equal Opportunity Employer.
